WE BUILT OUR SHOWROOM FOR YOU

Basic rules when looking for polished concrete

- Don't rush into selecting a company, do your homework.
- Investigate the company you are going to use.
- Ensure they have the correct machinery and equipment to give you the best floor.
- Fixing mistakes is not cheap. Get it correct the first time.
- Forget gimmicks, polished concrete is polished concrete.
- Order the correct concrete mix and MPA for polishing.
- Ensure the company you choose has years of experience in polishing concrete.
- Check out their office, showroom, location.

CCC Polished Concrete

A beautiful yet durable and low maintenance finish that is extremely scratch resistant. Suitable for homes, offices, factories and high traffic areas.

A superb looking and durable internal finish.

THE ULTIMATE FLOOR
CCC POLISHED CONCRETE

CCC Acid Etch

CCC ACID ETCH is an exclusive non-slip surface developed after years of working with concrete surfaces. It has a visually stylish appeal ideal for outdoor paths, driveways and alfresco areas. Our secret process produces a non-slip finish that is surprisingly non-abrasive making it perfect for around pools and eradicating the need for coping. CCC Acid Etch feels great on bare skin unlike the typical exposed non-slip finishes.

A superb looking and durable external finish.

THE ULTIMATE NON-SLIP SURFACE

CCC ACID ETCH

Machine ground & sealed

Contact us for information about the difference between CCC Polished Concrete and CCC Grind & Seal. We can also help you select the right sealer to suit your floor and lifestyle whether it be acrylic, polyurethane, epoxy or an eco-friendly sealer.
